

# **American Association of Automatic Door Manufacturers (AAADM)**

## **Profile**

The American Association of Automatic Door Manufacturers is a trade association of manufacturers of automatic pedestrian door systems. It was founded in 1994 to promote safety in the manufacture and operation of automatic doors throughout the industry.

All AAADM members manufacture their automatic door systems and/or components in substantial compliance with the American National Standard for Power Operated Pedestrian Doors, ANSI A156.10. This national consensus standard defines and governs requirements for pedestrian automatic door systems.

AAADM provides a Certification Training Program for installers and service technicians in the interests of improving and promoting safety in the industry. AAADM recommends that annual inspections, conducted by an AAADM Certified Inspector, be performed on every automatic pedestrian door system. The AAADM Certified Inspectors provide maintenance, repair and annual inspections of automatic door systems and help promote customer awareness and product safety.

## Members of AAADM 1999-2000

- B.E.A., Inc.
- Besam, Inc.
- Dor-O-Matic
- Dorma Automatics
- Horton Automatics
- KM Systems
- LARCO
- Microwave Sensors, Inc.
- NABCO Entrances, Inc.
- OPTEX, Inc.
- Stanley Access Technologies

President, AAADM: Donald R. Moerbe  
Horton Automatics, Corpus Christi, TX

Legal Counsel: Naomi Angel  
McBride, Baker & Coles, Chicago, IL
